

CYCLISTS APP MISSION STATEMENT CHARTER

Mission:

Today, more and more people have opted to use other alternate forms of transportation rather than using mass transit systems such as New York City's MTA. One of the growing forms of alternate transportation is using a bicycle or cyclist.

This app will attempt to solve problems a cyclist will encounter on a daily basis such as:

- 1.** Unsafe routes
- 2.** Congested streets
- 3.** Unable to find a location to park a bicycle
- 4.** Bicycle break downs such as flats broken chain
- 5.** Lack of cyclist friendly establishments that do not have bike racks

Vision:

An app that provides solution to the above problems by:

- 1.** Finding safe routes or maps
- 2.** Best routes to avoid congested streets
- 3.** Location to store or park a bicycle such as racks, indoor garages
- 4.** Location of bicycle repair shops
- 5.** Location of bike establishments that have bike racks in front

Success Criteria:

- 1.** Ability to find a rack locations within a two block radius
- 2.** Ability to plot safe routes or maps
- 3.** Finding the least congested streets
- 4.** Usage by friends to post locations of bike racks, cyclist friendly establishment and photos
